

Area Trends

In Employment and Unemployment

U.S. Department of Labor
Employment and Training Administration
September, October, November and December 1976

This bulletin provides the official list of areas eligible for benefits under a number of Federal area assistance programs on the basis of high unemployment. It also provides summary manpower data on 150 major labor areas.

Descriptions of the government programs for which an area may become eligible on the basis of high unemployment, and of the Department of Labor's program for classifying such areas, are found in the Section "Explanation of Area Classifications."

Requests for copies of this bulletin, additions to the mailing list and further information on the bulletin and its contents should be addressed to:

Changes Affecting Eligibility of Areas for
Various Types of Federal Assistance

September, October, November and December 1976

HIGHLIGHTS

Two major labor areas--Kansas City, Mo.-Kans., and Knoxville, Tenn.--were removed in December from the list of areas officially classified by the Employment and Training Administration as "areas of substantial unemployment" (Groups D, E, and F). Six major labor areas--Columbus, and Savannah, Ga., Cleveland, Columbus, and Dayton, Ohio; and Charleston-North Charleston, S. C.--were removed from this list in November. One major labor area--Nashville-Davidson, Tenn. was removed in October, while two areas were added--Newport News-Hampton and Norfolk-Virginia Beach-Portsmouth, Va.-N.C. Two major labor areas--Minneapolis-St. Paul, Minn. and Salt Lake City-Ogden, Utah--were removed from this listing in September. These changes reduced the number of major areas in the substantial unemployment category in December to 108, the lowest total since March 1975 when the number of areas in this category totaled 105. In December 1975, the number of substantial unemployment areas totaled 131. 1/

In addition to the revisions in major area classifications, three "other" (not major) labor areas were added to the substantial unemployment list in December, while three were deleted. In November, twenty-eight "other" labor areas were deleted from the list. In October five "other" labor areas were deleted from the substantial unemployment list, while in September there were no "other" labor areas added or deleted.

All changes in area classifications made in December affecting substantial or presistent unemployment areas were effective for Federal procurement preference purposes on January 1, 1977. All changes made in November were effective on December 1, 1976. Changes made in October were effective November 1, 1976. Changes made in September were effective on October 1, 1976.

1/ Descriptions of the various area classification categories are found in the "Explanation of Area Classifications" section of this bulletin. The current letter classifications of the 150 major labor areas are shown in the table "Current Classification and Labor Force, Unemployment, and Employment in 150 Major Labor Areas."

Persistent unemployment areas are potentially eligible for all types of assistance available under the Public Works and Economic Development Act. The nine major labor areas now in the persistent unemployment category are San Francisco-Oakland, and Stockton, Calif.; Bridgeport and New Britain, Conn.; Mayaguez, Ponce, and San Juan, P.R.; Seattle and Tacoma, Wash. In addition to these areas, 281 other labor areas plus two large cities--Newark, N. J., and Buffalo, N.Y.--and nine separately classified counties are considered persistent unemployment areas.

Major Area Classification Changes

In addition to the two major areas removed from the substantial unemployment category, two areas already classified in the substantial unemployment category changed their ratings in December. Los Angeles, Calif., and Syracuse, N.Y. shifted from Group E (9.0 to 11.9 percent unemployment) to Group D (6.0 to 8.9 percent unemployment).

In November, one area already classified in the substantial unemployment category changed its rating. Battle Creek, Mich. shifted from Group E to Group D. In October, seven major labor areas already classified in the substantial unemployment category changed their ratings. Brockton and New Bedford, Mass.; Flint, Lansing-East Lansing, Muskegon-Norton Shores-Muskegon Heights, and Saginaw, Mich.; and Newark, N.J. shifted from Group E to Group D. In September, two major areas already classified in the substantial unemployment category changed their ratings. Lansing-East Lansing, Mich. shifted from Group D to Group E, while Youngstown-Warren, Ohio shifted in the opposite directions from Group E to Group D.

The table below shows for the current month, the last four months, and a year ago, the number of major labor areas in the various letter classification categories.

Sections of Concentrated Unemployment or Underemployment

There were no changes in September, October, November, and December in the list of classified sections of concentrated unemployment or underemployment. Parts or all of 421 cities, 677 counties, in all States, 31 Indian reservations, and the Commonwealth of Puerto Rico are classified as sections of concentrated unemployment or underemployment. As indicated in the Explanation of Area Classifications summary (page 7), firms in or near these sections which agree to hire disadvantaged workers are eligible for preference in bidding on certain Federal procurement contracts.

explanation of area classifications

Each month the Department of Labor classifies 150 employment centers according to the adequacy of their labor supply. The classifications are based on reports, prepared by the State employment security agencies, covering employment and unemployment developments and outlook in each area. A letter classification code, shown below, is assigned to each major area. The unemployment rate is a key factor in determining the area classification, but consideration is also given to the area's employment and unemployment outlook, local employer estimates of their manpower requirements, the relationship between labor supply and demand, the seasonal pattern of employment and unemployment fluctuations in the area, and other factors.

Labor Supply Category	Description	Unemployment Rate 1/
Group A	Overall labor shortage	Less than 1.5%
Group B	Low unemployment	1.5 to 2.9%
Group C	Moderate unemployment	3.0 to 5.9%
Group D	Substantial unemployment	6.0 to 8.9%
Group E	"	" 9.0 to 11.9%
Group F	"	" 12.0 or more

1/ Ratio of unemployment to area's total labor force.

Areas of Substantial Unemployment

A labor area in which the current and anticipated local labor supply substantially exceeds labor requirements is classified as an area of "substantial unemployment." An area is placed in this category when:

- (1) Unemployment in the area is equal to 6 percent or more of its labor force discounting seasonal or temporary factors, and
- (2) It is anticipated that the rate of unemployment during the next 2 months will remain at 6 percent or more, discounting temporary or seasonal factors.

Major labor areas classified in Groups D, E, and F are regarded as areas of "substantial unemployment." The Department of Labor also classifies several hundred other areas when they meet the substantial unemployment criteria. These areas are not placed in specific letter classification categories. Areas of less than 1,500 population may be "certified" by State employment security agencies, upon authorization by the Department, as areas of substantial or persistent unemployment. Such areas are not included in the list of classified areas.

Areas of Persistent Unemployment

A labor area, or a city of 250,000 or more population, or a county, may be classified as an area of "persistent unemployment" when unemployment during the most recent calendar year has averaged 6 percent or more of the labor force, and the rate of unemployment has:

- (1) Averaged 6 percent or more and has been at least 50 percent above the national average for 3 of the preceding 4 calendar years, or
- (2) Averaged 6 percent or more and has been at least 75 percent above the national average for 2 of the preceding 3 calendar years, or
- (3) Averaged 6 percent or more and has been at least 100 percent above the national average for 1 of the preceding 2 calendar years.

Annual average unemployment rates used in the classification of areas of persistent unemployment are listed below:

	1976	1975	1974	1973
National Average	7.7	8.5	5.6	4.9
50% above	11.6	12.8	8.4	7.4
75%	13.5	14.9	9.8	-
100%	15.4	17.0	-	-

Sections of Concentrated Unemployment or Underemployment

Sections of concentrated unemployment or underemployment include all places participating in the Department of Labor's "Concentrated Employment Program," all "target areas" under the "Model Cities" program of the Department of Housing and Urban Development, all areas which were identified for Federal assistance to provide public service employment under Section 6 of the Emergency Employment Act of 1971 (P.L. 92-54), and Indian Reservations with a population of 4,000 or more.

Labor Areas

A "labor area" consists of a central city or cities and the surrounding territory within commuting distance. It is an economically integrated geographical unit within which workers may readily change jobs without changing their place of residence. Labor areas usually include one or more entire counties, except in New England where towns are considered the major geographical units.

Major labor areas usually have at least one central city with a population of 50,000 or more. In most instances boundaries of major labor areas coincide with those of Standard Metropolitan Statistical areas as determined by the Office of Management and Budget in consultation with a Federal interagency committee.

Geographical boundaries of all classified areas are listed in an Employment and Training Administration publication entitled "Directory of Important Labor Areas." Revisions in labor area boundaries are listed monthly in the "Area Trends in Employment and Unemployment" bulletin.

Federal Procurement Preference

Firms with establishments in areas of high unemployment and firms which agree to employ economically

disadvantaged workers are eligible for three kinds of preference in certain Federal contract awards under Defense Manpower Policy No. 4, revised.

First preference is extended to firms in or near sections of concentrated unemployment or underemployment or in an area of substantial or persistent unemployment which agree to employ at least 25 percent of their newly hired workers each month from among economically disadvantaged residents of the classified section or area. Second preference is extended to firms located in any area which agree to hire at least 15 percent of their new hires each month from among economically disadvantaged workers. Third preference is given to firms in areas of persistent or substantial unemployment, with no requirement to employ economically disadvantaged workers.

For purposes of this program, an individual shall be considered as economically disadvantaged who is a member of a family (1) which receives cash welfare payments, or (2) whose annual income in relation to family size and location does not exceed the most recently established poverty levels determined in accordance with criteria established by the Office of Management and Budget (OMB).

Applications for certificates of eligibility which are required for first or second preference are available from local offices of State employment security agencies serving the area where the establishment is located. No certificate is required for third preference. Firms not otherwise eligible may nevertheless qualify for preference by agreeing to subcontract a substantial proportion of a Federal contract to eligible firms.

Firms certified for first preference and firms located in areas of substantial or persistent unemployment are also eligible for preference under Executive Order 10582, implementing the Buy American Act. For purposes of the Buy American Act areas of persistent unemployment are considered to be areas of substantial unemployment.

^{1/} Geographical boundaries of labor areas shown in capital letters, except as noted below, are identical with boundaries of Standard Metropolitan Statistical Areas (SMSA's) established by the Office of Management and Budget (OMB). Definitions of the Employment and Training Administration which differ from those of the OMB are: Anchorage, Alaska; Denver-Boulder, Colo.; Danbury, Hartford, Norwalk, and Waterbury, Conn.; Alexandria, La.; Fall River, Lowell, New Bedford, Pittsfield, Springfield-Chicopee-Holyoke, and Worcester, Mass.; Duluth-Superior, Minneapolis-St. Paul, Minn.-Wis.; Las Vegas, Nev.; New York, N.Y.; Ponce, P.R.; Providence-Warwick-Pawtucket, R.I.; Memphis, Tenn.; Salt Lake City-Ogden, Utah

^{2/} Program eligibility extends only to corporate limits of the municipality, not to other portions of the labor area containing the city.

NOTE: Explanation of column headings and eligibility of areas under Federal assistance programs is contained in the "Explanation of Area Classifications" section of this bulletin.

SECTIONS OF CONCENTRATED UNEMPLOYMENT OR UNDEREMPLOYMENT

Places listed below may relate only to parts of cities or parts of counties rather than to the entire city or county. Specific boundaries of parts of cities or parts of counties may be obtained from the appropriate State employment security agencies or their constituent local public employment service offices.
